

UPDATING OF THE OPEN SPACE AND RECREATION SUB-ELEMENT

Periodic updating of information contained in the Open Space and Recreation Sub-Element provides the opportunity to identify current data and emerging trends, as well as to measure success towards meeting Key Initiatives and addressing identified issues. An annual update should include reviewing the data and statistical base of information contained in the Sub-Element and the progress towards resolving issues through completion of the Key Initiatives. This annual review will be included as a segment of the year-end report on the activities and accomplishments of the Parks and Recreation Department. The five-year revision should include the most recent federal census or special census data, any current studies of trends and alternative futures, and new legislative policies.
